Activity Title Video Resource Pack titled *What are you diving into?*

Curriculum Framework Activity Outcomes

Learning Area	Learning Outcome	Specific Learning
Health and Physical Education	Knowledge & Understanding	<ul style="list-style-type: none"> Identifying factors that contribute to aquatic safety Identifying consequences of unsafe aquatic behaviour, including spinal cord injury and loss of quality of life Identifying risk taking behaviour
	Attitudes & Values	<ul style="list-style-type: none"> Realise valued aspects of life can be lost due to serious injury from water activity
	Self Management Skills	<ul style="list-style-type: none"> Identifying risk reduction measures to minimise aquatic related injuries Participate in and commit to making wiser water choices
English	Interpersonal Skills	<ul style="list-style-type: none"> Demonstrating empathy with disabled members of the community Participating in discussion about possible consequences and ways of preventing potentially risky water behaviour

Learning Area

Learning Outcome

Specific Learning

	Attitudes, Values & Beliefs	<ul style="list-style-type: none">▪ Students identify attitudes, values and beliefs through personal communication and reflect on their own attitudes, values and beliefs that influence their responses to water related behaviours
Science – Understanding Concepts	Life & Living	<ul style="list-style-type: none">▪ Students understand physiological processes such as movement and communication within the body

Phases of Development

Suitable for students in Years 5, 6 & 7 participating in In-term swimming lessons.

Activity Resources Required

1 x *What are you diving into?* Video Resource Pack

Procedure

Contact PBF Australia for a copy of the *What are you diving into?* Video Resource Pack. Available **free of charge** to Primary School teachers.

Community Links

The *What are you diving into?* Video Resource Pack is also suitable for swimming instructors, Surf Life Saving Clubs and community aquatic centres. Sharing of the resource will enhance community awareness of water related spinal cord injury and contribute to a reduction in injuries.

Other Resources Available

Posters, brochures and information on PBF are available by contacting (08) 9443 1777.
